

Data Quality Validation Report

Run ID: 2026-05-25-prod-migration
Generated: 29/5/2026, 8:51:54 pm
Duration: 353.3s

Summary

Overall Status:	FAIL
Go-Live:	BLOCKED
Rules Checked:	28
Rules Passed:	1
Rules Failed:	22
Tables Validated:	customers, orders, order_items, products
Source:	mongodb
Target:	neon
Instruction:	Full validation on all tables
Urgency:	normal
Recommendation:	BLOCK

[2026-05-25-prod-migration] Full validation run (heuristic fallback). 28 rules checked across 4 table(s). 18 HIGH and 4 MEDIUM severity failures detected. Go-live is BLOCKED.

Agent Results

Agent	Status	Checked	Passed	Failed	Duration
Table Profiling	FAIL	28	1	22	8441ms
Column Profiling — Skipped: previous stage reported HIGH severity failure	WARN	0	0	0	-
Pattern Analysis — Skipped: previous stage reported HIGH severity failure	WARN	0	0	0	-
Reconciliation — Skipped: previous stage reported HIGH severity failure	WARN	0	0	0	-
Semantic Validation — Skipped: previous stage reported HIGH severity failure	WARN	0	0	0	-
Freshness — Skipped: previous stage reported HIGH severity failure	WARN	0	0	0	-

Failures

Table Profiling

Severity	Location	Rule	Detail	Remediation
HIGH	customers	row_count_reconciliation	Row count mismatch: source=3, target=0 (100.00% diff exceeds 0% tolerance)	Yes
HIGH	customers	schema_compatibility	Schema mismatches detected: Column "_id" missing in target	Yes
HIGH	customers	duplicate_primary_key	Failed to check duplicate PKs: SELECT "customer_id"::text AS key, COUNT(*)::int AS count FROM "target"."customers" GROUP BY "customer_id" HAVING COUNT(*) > 1 ORDER BY count DESC LIMIT 100 - column "customer_id" does not exist	-
HIGH	customers	checksum_hash	Table hash mismatch (MD5): source=a96b9c5328481711... target=...	Yes
MEDIUM	customers	constraint_preservation	1 constraints missing on target: PRIMARY KEY on (_id)	Yes

HIGH	customers	volume_baseline	Target table is empty — zero rows migrated	Yes
HIGH	orders	row_count_reconciliation	Row count mismatch: source=3, target=0 (100.00% diff exceeds 0% tolerance)	Yes
HIGH	orders	schema_compatibility	Schema mismatches detected: Column "_id" missing in target	Yes
HIGH	orders	duplicate_primary_key	Failed to check duplicate PKs: SELECT "order_id"::text AS key, COUNT(*)::int AS count FROM "target"."orders" GROUP BY "order_id" HAVING COUNT(*) > 1 ORDER BY count DESC LIMIT 100 - column "order_id" does not exist	-
HIGH	orders	checksum_hash	Table hash mismatch (MD5): source=7d6a0a4925b3f87f... target=...	Yes
MEDIUM	orders	constraint_preservation	1 constraints missing on target: PRIMARY KEY on (_id)	Yes
HIGH	orders	volume_baseline	Target table is empty — zero rows migrated	Yes
HIGH	order_items	row_count_reconciliation	Failed to compare row counts: SELECT COUNT(*)::int AS count FROM "target"."order_items" - relation "target.order_items" does not exist	-
HIGH	order_items	duplicate_primary_key	Failed to check duplicate PKs: SELECT "item_id"::text AS key, COUNT(*)::int AS count FROM "target"."order_items" GROUP BY "item_id" HAVING COUNT(*) > 1 ORDER BY count DESC LIMIT 100 - relation "target.order_items" does not exist	-
MEDIUM	order_items	constraint_preservation	1 constraints missing on target: PRIMARY KEY on (_id)	Yes
HIGH	order_items	volume_baseline	Failed to check volume: SELECT COUNT(*)::int AS count FROM "target"."order_items" - relation "target.order_items" does not exist	-
HIGH	products	row_count_reconciliation	Row count mismatch: source=3, target=0 (100.00% diff exceeds 0% tolerance)	Yes
HIGH	products	schema_compatibility	Schema mismatches detected: Column "_id" missing in target	Yes
HIGH	products	duplicate_primary_key	Failed to check duplicate PKs: SELECT "product_id"::text AS key, COUNT(*)::int AS count FROM "target"."products" GROUP BY "product_id" HAVING COUNT(*) > 1 ORDER BY count DESC LIMIT 100 - column "product_id" does not exist	-
HIGH	products	checksum_hash	Table hash mismatch (MD5): source=e6c83cdb6bcf96a9... target=...	Yes
MEDIUM	products	constraint_preservation	1 constraints missing on target: PRIMARY KEY on (_id)	Yes
HIGH	products	volume_baseline	Target table is empty — zero rows migrated	Yes

Skipped Stages

- Stage 2: Column Profiling
- Stage 3: Pattern Analysis + Reconciliation
- Stage 4: Semantic Validation + Freshness
